Bachelor Degree Information  
System ( Budi Luhur University)  
GPA 3.86/4.00

## Summary

Having a passion for software solutions. With expertise in multiple programming languages, development frameworks, and software development methodologies, I am well-equipped to design, develop, and deploy high-quality applications that meet the needs of users.

My strengths lie in my ability to work collaboratively with cross-functional teams to understand requirements and deliver scalable, secure, and maintainable applications. I am skilled in front-end and back-end development, database design, API development, and cloud-based solutions. I am also adept at implementing best practices for software development, including version control, code reviews, and automated testing.
